

Norton Neuroscience Institute

Brain Tumor Symposium

A continuing medical education program for nurses, physical therapists, occupational therapists and speech therapists

Basics for the Caregiver

Wednesday, March 21, 2012 • 8:30 a.m. to 4 p.m.

PNC Club at Papa John's Cardinal Stadium • Louisville, Ky.

Featuring a mock tumor board and a panel discussion with survivors and caregivers

Course director

Todd W. Vitaz, M.D.

Symposium highlights

- Describe the effects of living with a brain tumor in day-to-day life
- Discuss brain tumors according to type and location, using current classification systems
- Recall basic pathophysiology relevant to the development of seizures related to brain tumors
- List current and advanced treatment options for brain tumors
- Review relevant case studies and treatment interventions from individuals living with brain tumors
- Review effective interventions for rehabilitation
- Discuss the benefits of cognitive treatment options
- Apply behavioral therapy related to brain tumors
- Describe the importance of developing a plan of care for brain tumor survivors and their caregivers

Call (502) 629-1234 and mention promo code "brain tumor" or go to NortonHealthcare.com/Calendar to register. Continuing education credits available for nurses, physical therapists, occupational therapists and speech therapists. Also open to office personnel, caregivers, survivors and current patients. This is a free event. Lunch will be provided.

Presented in partnership with the Brain Injury Alliance of Kentucky.
